

'ARCHITECTURE' BY RICHARD FRINIER NOW AVAILABLE TO THE TRADE THROUGH PINDLER

New Sunbrella® Textile Designs Inspired by Architecture

Richard Frinier's Architecture Collection of Sunbrella® fabrics, which showcases the designer's strong respect and appreciation for the importance architecture plays in society, is now available to the trade through Pindler.

"We are thrilled to partner with Richard Frinier on this sophisticated collection," says Sarah Williamson, design manager for Pindler. "One of our most requested categories by customers is indoor/outdoor fabric. We're excited to fulfill that demand and present this collection to the design trade along with Richard's architectural inspiration."

The Architecture Collection echoes architectural design elements found in surface and facade design with a versatile range of textiles with distinctive constructions, textures, patterns and colors. Fabrics in the Architecture Collection enhance and complement both interior and exterior spaces; patterns include:

- **NYC** – A synthesis of architectural forms and soaring skyscrapers, **NYC** translates the vertical facades of the iconic metropolis into a tapestry of urban living. **NYC** is available in *Sand, Brick, Steel, Green, Glass* and *Skyline*.
- **LA** – An abstract interpretation inspired by a modern building facade in Los Angeles. **LA** is available in *Brick, Stone, Green, Glass, Sand, Skyline, Steel* and *Midnight*.
- **Hi Rise** – Kowloon, a densely-populated area of Hong Kong, was the inspiration behind **Hi Rise**, which appears as a textured stripe of tiny windows. **Hi Rise** is available in *Sand, Stone, Natural, Green, Steel* and *Skyline*.
- **Lumas** – Showcases an offset window pattern infused with reflective fiber for a shimmer that creates a sense of energy. **Lumas** is available in *Brick, Daylight, Glass, Green, Steel, Midnight* and *Skyline*.

- **Hexspace** – Based on an architectural window screen Frinier saw on a French metropolitan high-rise building. **Hexspace** is available in *Daylight, Brick, Midnight, Skyline, Stone* and *Green*.
- **Linx** – An adaptation of a hex-shaped facade as seen on a Shenzhen skyscraper translated into this dimensional motif. **Linx** is available in *Daylight, Green, Glass, Midnight, System, Vapor* and *Steel*.
- **Architex** – Reimagined from the window wall of a New York skyscraper, **Architex** appears as a woven grid pattern. **Architex** is available in *Sand, Stone, Green, Glass, Brick, Midnight* and *Skyline*.
- **Surface** – A honeycomb pattern originating from slate tiles that transforms into a three-dimensional fabric construction. **Surface** is available in *Sand, Green, Vapor, Skyline, Steel, Daylight* and *Stone*.
- **Struxture** – A versatile construction that references the appearance of exterior surface materials and forms as the base textile for all Architecture Collection patterns. **Struxture** is available in *Natural, Sand, Vapor, Stone, Steel, Daylight, Glass, Midnight, Skyline, Brick* and *Green*.
